

2022-2023

JUVENILE SERVICES COMMITTEE AND NEBRASKA COALITION FOR JUVENILE JUSTICE JOINT ANNUAL REPORT

Recommendations to the Nebraska Children's Commission and the
Judiciary Committee of the Legislature

Submitted Pursuant to Neb. Rev. Stat. 43-4203 and 43-2412(1)(b)

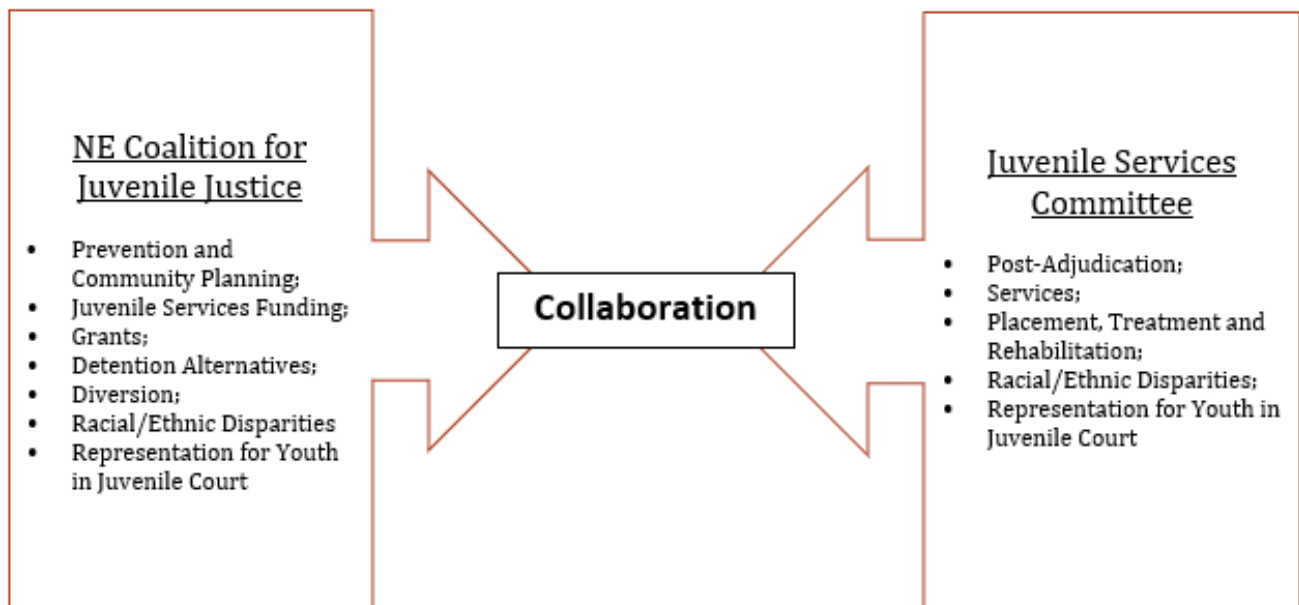

BACKGROUND

Juvenile Services Committee (JSC) of the Nebraska Children’s Commission and the Nebraska Coalition for Juvenile Justice (NCJJ) present this joint report as a thoughtful contribution to the reform of juvenile justice in Nebraska and in compliance with Neb. Rev. Stat. 43-4203 and 43-2412(1)(b). The recommendations contained in this joint report support the ongoing juvenile justice reform efforts, and reflect a collaborative, open, and inclusive process of discussion and information sharing. J.

In order to enhance collaboration, coordinate initiatives, and increase the impact and efficacy of juvenile justice reform in Nebraska, the JSC and NCJJ have begun collaborating in the form of joint meetings, joint reporting, and inclusive workgroups. This collaboration will allow the most coordinated response possible for juvenile justice reform, while allowing each body to meet its statutory obligations in the most efficient way possible.

The two have divided initiatives and work based on the juvenile justice continuum of care.

These groups will work together towards juvenile justice reform and improved outcomes for Nebraska’s youth and families. Both groups remain willing to serve as a resource to the Legislature, Governor, Judicial Branch, and state agencies for any juvenile justice related issue or initiative.

RECOMMENDATIONS

MISSION AND GOAL

Mission: Design a comprehensive, accountable, culturally competent, continuum of care in the juvenile justice system that meets the needs of families and youth while maintaining public safety.

Goal: To work collaboratively with the executive, legislative, judicial, and county branches of government, the Nebraska Children’s Commission (Commission), and other key stakeholders to establish and support the development of the ideal Juvenile justice System that will prevent children and youth from entering or becoming more deeply involved in the juvenile justice system.

Juvenile Services Committee Recommendations

Strategic Priority

The workgroup recommends there be a collaborative effort to increase awareness, define roles and partner with MCOs to increase access to the services available through not only Medicaid but all funding streams

- Services Array

DHHS consider and adopt this workgroup’s revisions and key concepts to the current Community Treatment Aide definition which will provide a service available in a youth’s community while actively working on their treatment plan.

- Service Array

JUVENILE SERVICES COMMITTEE

Deb VanDyke Ries (Nebraska Court Improvement Project) and Nick Juliano (RADIUS) serve as the co-chairs for the JSC.

During this reporting year, the JSC acknowledged that race and ethnic disparities (R/ED) was a larger conversation than what one workgroup can do. Within the JSC and the Commission, these topics need to be a part of every conversation surrounding juvenile justice. The R/ED workgroup will reconvene if there are specific issues to be addressed but have not met on a regular basis this year because of how intertwined conversations is with other issues. Future work related to R/ED includes completing a SWOT analysis to determine what opportunities can be found to make real impact on disproportionality within Nebraska's youth systems.

The JSC is charged with reviewing the role and effectiveness of the YRTC and established a workgroup to address this in previous years. DHHS has created a 5-year plan the JSC supports and has not identified any immediate recommendations for the upcoming year. The Office of Juvenile Services Administrator, Mark LaBouchardiere, from DHHS attends and updates the JSC to provide any information to inform future decision making. YRTC normalcy reports are also reviewed by the Nebraska Children's Commission to ensure activities are focused on the youth and normalize their experience as much as possible while involved with YRTC. The JSC intends to keep the YRTC as an ongoing item of discussion and create a workgroup as needed.

ACCESS TO TREATMENT WORKGROUP

Julie Smith, Chair

The Access to Treatment Workgroup was formed in July 2022 bringing together experts from the community to explore the scope of the problem, identify underlying issues contributing to the problem; and develop actionable steps to improve timely access to clinically indicated treatment services.

The group has identified six overarching solutions to overcome the barriers impacting access to treatment services in Nebraska:

1. Improve timely access to a robust continuum of treatment services
2. Address compensation and training to attract and retain a highly skilled network of providers
3. Incentivize collaboration on complex cases
4. Evaluate funding structures and rates
5. Increase access to individual and family supports necessary to serve youth at home and in the community safely
6. Evaluate the intersection of mental health and prevention services to improve future outcomes

Although not the current focus, the workgroup identified several systemic issues that have a direct impact on access to services. Policy, statute or regulation assessment and change will be necessary priorities of any further cross-systems work related to access to services. These areas have a direct impact on access to treatment services and should be considered priorities of any further cross-systems work related to access to treatment. This will not address the needs of the highest needs youth with complexity however is intended to offer alternatives to PRTF for youth with less acuity making more capacity for youth with the highest need.

ACCESS TO TREATMENT WORKGROUP

During the last reporting year, the group has focused on two specific areas:

1. Utilization of Care Management

Care Management is a valuable resource provided by the Managed Care Organizations (MCO's) designed to help their members access services. To maximize effectiveness and reduce the impact of silos on the access to services, there must be a clear understanding by all system partners such as DHHS-CFS, DHHS-DD, DHHS-DBH, Behavioral Health Regions, Probation, Medicaid and MCO's regarding their roles, resources, payment options and the interconnectedness between agencies. The workgroup recommends there be a collaborative effort to increase awareness, define roles and partner with MCOs to increase access to the services available through not only Medicaid but all funding streams.

One factor identified impacting effective utilization of care management is lack of a clear understanding of roles and responsibilities for each person who identifies as a Case Manager across the various agencies. This has created system gaps that prevent the timely access to services and fuels conflict between system partners and further delays access to services. The workgroup is undertaking an effort to develop documents that:

- Clearly outline the roles, responsibilities, and limitations of each system partner
- Maps the interconnectedness between agencies
- Outlines processes including authorization, payment, and processes specific to youth under Court supervision.
- Identifies opportunities for innovation, collaboration, and blended funding streams

Prior efforts have relied heavily on engagement and a “storytelling” model without companion written documents created by and agreed upon by all system partners resulting in further miscommunication and lost institutional knowledge with turnover and workforce changes.

2. Evaluating the Community Treatment Aide (CTA) definition

After determining the service continuum creates gaps in services and an overreliance on PRTF's, the workgroup started to evaluate what services could bridge the gap between outpatient services and PRTF that still offer more intensive, skill-based supports designed to keep a youth in their community. CTA is a supportive service paid for by Medicaid as a skill-based supplement to individual and family therapy when included as a part of an individual's treatment plan. The workgroup reviewed the current service definition to ensure CTA would be accessible for the intended target population and provide the supports needed for youth currently requiring more intensive treatment than outpatient services alone. Several proposed revisions in Appendix ? have been suggested to further refine the service definition. Medicaid staff have been part of this discussion, and the workgroup would recommend that DHHS adopt the revisions provided.

NEBRASKA COALITION FOR JUVENILE JUSTICE

The Nebraska Coalition for Juvenile Justice (NCJJ) was created in 2000 by LB1167 and codified at Neb. Rev. Stat. §43-2411 as an advisory committee to the Nebraska Commission on Law Enforcement and Criminal Justice (Nebraska Crime Commission). The NCJJ was formed to recommend grant recipients to the Nebraska Crime Commission; identify juvenile justice issues, share information, and monitor and evaluate programs in the juvenile justice system; recommend guidelines and supervision procedures to be used to develop or expand local diversion programs for juveniles; and prepare an annual report including recommendations on administrative and legislative actions which would improve the juvenile justice system. Elaine Menzel (Nebraska Association of County Officials) serves as the Chair and Kari Rumbaugh (Nebraska Probation Administration) serve the Vice Chair of the NCJJ.

While the NCJJ is no longer federally mandated, due to the withdrawal from Title II funding, the NCJJ remains active with five standing subcommittees who meet in addition to quarterly NCJJ meetings: Executive, Grant Review, Racial/Ethnic Disparities (R/ED), Diversion, and Community Planning.

The goal of the NCJJ is to improve all aspects of the juvenile justice system throughout Nebraska by assisting communities and the state with planning and implementation of systemic improvements, advocacy, education, and award recommendations of state funds for such purposes. The ultimate goal of the NCJJ is to improve the lives and futures of children, youth, and families involved with the juvenile justice system.

Due to the desire to not duplicate efforts with other statewide commissions and coalitions, and to develop strong recommendations for juvenile justice in Nebraska, the NCJJ joined with the Juvenile Services Committee of the Nebraska Children's Commission to hold joint meetings and provide annual recommendations.

During this fiscal year the NCJJ was able to secure a federal Title II grant to support the State Advisory Group (NCJJ) in meetings and training for members. The NCJJ was able to maintain four young adults representing lived experience in the juvenile justice system, as well as obtain appointment of an Indian tribal representative.

GRANT REVIEW SUBCOMMITTEE

The Grant Review Subcommittee is responsible for making funding recommendations to the Crime Commission for the Community-based Juvenile Services Aid grant (CBA) and the Juvenile Services grant (JS). Annually, funds are announced and distributed on a formula basis for CBA funds and on a competitive basis for JS funds. If any county or tribe does not request their CBA formula amount, those funds are put into a competitive pot of funding called Enhancement-based grant (EB) funds. Counties and tribes are also able to apply for these EB funds in addition to their CBA formula allocation. If Nebraska were to receive federal Office of Juvenile Justice and Delinquency Prevention funds (Title II) in the future, the grant review subcommittee would also make the funding recommendations for this competitive funding.

Community-based Juvenile Services Aid

Community-based Juvenile Services Aid are state funds appropriated by the Nebraska Legislature and administered by the Nebraska Crime Commission. The Community-based Juvenile Services Aid Program promotes the development and implementation of community-based programs designed to prevent unlawful behavior and to effectively minimize the depth and duration of the juvenile's involvement in the juvenile justice system. Funds are awarded to aid recipients prioritizing programs and services that will divert juveniles from the juvenile justice system, reduce the population of juveniles in juvenile detention and secure confinement, and assist in transitioning juveniles from out-of-home placements. Eligible applicants are limited to individual counties, multiple counties, federal or state recognized Indian tribes, or any combination of the entities listed. This year the grant review subcommittee assisted in the review of Community-based Juvenile Services grant requests in the amount of \$5,798,000.00. Thirty-two Community-based Juvenile Services grants and 14 Enhancement Based grants were awarded for project period July 1, 2022 to June 30, 2023. An additional 15 Supplemental Enhancement Based grants were awarded to 11 counties totaling \$699,638.00. In total through the Community-based Juvenile Services grant, \$6,497,638.00 was awarded. (See distribution of funds table below).

GRANT REVIEW SUBCOMMITTEE

Juvenile Services Funds

Juvenile Services funds are state funds appropriated by the Nebraska Legislature and administered by the Nebraska Crime Commission. Availability of funds are announced on an annual basis and applications are accepted through a competitive grant process. Funds received through the Juvenile Services Grant Program shall be used exclusively to assist the recipient in the implementation and operation of programs or the provision of services identified in the recipient's community plan, including; programs for local planning and service coordination; screening, assessment and evaluation; diversion; alternatives to detention; family support services; treatment services; reentry services; truancy prevention and intervention programs; and other services documented by data that will positively impact juveniles and families in the juvenile justice system. Applicants are limited to community-based agencies or organizations, political subdivisions, school districts, federally recognized or state-recognized Indian tribes, or any combination of the entities listed. Projects funded through juvenile services funds include but are not limited to programs for assessment and evaluation, family support services, alternatives to detention, mentoring, school programs, diversion and to address Racial and Ethnic Disparities. For fiscal year 2023, Juvenile Services grant requests totaling \$1,968,026.00 were reviewed and awarded to 11 counties or organizations for a total of \$564,600.00 for project period July 1, 2022 - June 30, 2023. An additional two (2) Supplemental Juvenile Service grants were awarded to two (2) agencies totaling \$35,599.00. In total through the Juvenile Services grant, \$600,199.00 was awarded (See distribution of funds table).

DIVERSION SUBCOMMITTEE

The Juvenile Diversion Subcommittee of the NCJJ is a working group established in 2013. The duties of the subcommittee, as outlined in Neb. Rev. Stat. §81-1427, include assisting in regular strategic planning related to supporting, funding, monitoring, and evaluating the effectiveness of plans and programs receiving funds from the Community-based Juvenile Services Aid Program.

In January of 2018, the subcommittee developed a strategic plan identifying priorities of the subcommittee in which goals and direction could be established moving forward. Those goals were then assigned to working groups to start the process of achieving statewide goals. The Diversion Subcommittee Strategic Plan can be found [here](#). The new Nebraska Screen and Assessment Tool (NSAT) was completed by Dr. Zachary Hamilton in June, 2021. Beginning July 1, 2021, Dr. Michael Campagna has been assisting with the piloting of the NSAT, as well as creating the manual, training materials and training curriculums. These efforts are designed to bring more evidence-based practices in diversion with the goal of developing more consistency among counties and programs. For more information about Juvenile Diversion in Nebraska, please see the Annual Report [here](#).

COMMUNITY PLANNING ADVISORY SUBCOMMITTEE

Pursuant to [Neb. Rev. Stat. §43-2404.01](#), the Director of the Community-based Juvenile Services Aid Program shall develop and coordinate a statewide working group as a subcommittee of the NCJJ to assist in regular strategic planning related to supporting, funding, monitoring, and evaluating the effectiveness of plans and programs receiving funds from the Community-based Juvenile Services Aid Program. The working group was developed in 2013 and is comprised of individuals from across Nebraska. This statewide working group is referred to as the Community Planning Advisory Subcommittee of the NCJJ. For more information about the Community-based Juvenile Services Aid Program, please see the Annual Report [here](#).

OTHER NCJJ SUBCOMMITTEES

The Racial/Ethnic Disparities (RED) subcommittee is collaborating with the Juvenile Services Committee to provide input on R/ED issues. The R/ED subcommittee of the NCJJ has not been active over the last year. The hope is to have individuals come forward to chair the subcommittee and resume work on assessing and recommendations on addressing R/ED in Nebraska.

The NCJJ chair and vice-chair have developed a Young Adult subcommittee to work on bringing more youth and family voice to the forefront of juvenile justice issues and discussion. Members have joined and agenda and activity formation is underway.

GRANT FUNDS

Distribution of Grant Funds Table			
Project Period July 1, 2022 - June 30, 2023			
FY2022 Juvenile Services Awards			
Recipient	Original Award	Supplemental Award	Total
Child Saving Institute	\$ 51,528.00	-	\$ 51,528.00
Community Action Partnership of Western NE	\$ 46,570.00	-	\$ 46,570.00
Completely KIDS	-	\$ 20,000.00	\$ 20,000.00
