Recommendation:		Agency Agrees	% Done	Resour- ces Needed	New Goal Proposed
3. Design a consultation program administered by child and adolescent psychiatrists to provide face to face or tele-psychiatry in remote areas:		-----			
... for person responsible for consenting for treatment					
... for providers treating difficult population					
... at request of DHHS or courts when concerned					
4. Create a website providing easy access for clinicians, foster parents, and other caregivers on pertinent policies and procedures governing meds, consent forms, adverse effect rating forms, reports of prescription patterns, and links to helpful, accurate and ethical website about psychiatric diagnosis and medications.					
5. DHHS and the Administrative Office of the Courts along with other system stakeholders should work together on guidelines and protocols that address the principals and recommendations in this document.					

Goals are based on the Principles Articulated in Report:

Youth in state custody are entitled to: (1) Continuity of care, effective case management and longitudinal individualized treatment planning; (2) Effective treatment: psychosocial, psychotherapeutic, behavioral, and when indicated pharmacotherapy; (3) Informed consent by a person authorized to act for parents and assent from youth when possible; (4) Baseline identification of target symptom, monitoring of response, and education of youth and caregiver about effects and side-effects of medications; and (5) Necessary medications in a timely manner.
