## DR. DANIEL WEBSTER

Daniel Webster, PhD, is a senior research specialist at the Center for Social Services Research (CSSR) in the School of Social Welfare at U.C. Berkeley where he serves as Principal Investigator of the California Child Welfare Indicators Project (CCWIP). CCWIP carries out quarterly production and statewide dissemination of federally and state-mandated performance measures that support the California Outcomes and Accountability System at the state and county level.

Dr. Webster has provided technical assistance for more than a decade in the understanding and use of longitudinal data to promote system improvement to public child welfare agencies in 10 states. He served as the evaluation liaison for the California grantee (California Partners for Permanency) of the Federal Permanency Innovations Initiative to reduce long-term foster care, and he regularly co-instructs courses with staff from Chapin Hall at the University of Chicago through the Regional Training Academies on the application of advanced analytics for public child welfare administrators from state and county agencies. In addition to his membership on statewide work groups such as the CQI Advisory committee, SACWIS Oversight and the County Welfare Directors Association Operations and Children's committees, Dr. Webster is an appointee of the California Child Welfare Council for which he co-chairs the Data Linkages and Information Sharing Sub-Committee.

He graduated with honors from the University of Texas at Austin, holds a master's degree in developmental psychology from the University of Chicago, and received his M.S.W. and doctorate with distinction from the School of Social Welfare at U.C. Berkeley.
