Biweekly meeting
Referrals
Update on current Diversion/Intervention youths

Testimonials

The interventionist program is a great additional resource to help our students who need some extra TLC....provides students with organizational skills, holds them accountable, helps them be responsible, and most importantly, builds positive relationships..."

Cyndi Wells-GISH Principal

As a counselor, I was directly involved with students in all grade levels who showed grade improvement and attendance and changed improper behavior after regular sessions. Interventionist's inspire students to change lives and be responsible and productive. This program helped many at risk students with home visits, awards for personal achievements, contact with classroom teachers, help with homework, reminders to study for exams, and general interests in their lives.

Larry Uhing- Counselor

The interventionist program has been a life saver for so many of our "toughest kids"... and offers insight that we are sometimes lacking. Our work at school is better because of this program.

Mindy Ulmer- Counselor
