Nebraska Permanency Resource Responsibility Tool

This tool is used by the Nebraska Department of Health and Human Services (NDHHS) to determine and modify the amount of financial assistance for eligible children. This tool is based on the Nebraska Caregiver Responsibility Tool that is used to determine foster care maintenance payments by NDHHS.

Adoption and Guardianship Assistance

The Adoption and Guardianship Assistance Programs support the well-being of children and families by ensuring that financial barriers and costs do not prevent children with special needs from achieving permanency in stable homes. The program provides or continues financial assistance for an eligible child aged 18 or under after finalization.

Rates are determined according to *Expenditures on Children by Families, 2015*¹, by applying 65% of the USDA rate based on the child's age, referenced in "Table 4. Estimated annual expenditures on a child by married-couple families, urban Midwest, 2015." For the purpose of the subsidy program, the Health Care and Child Care, expenses were removed from the determination. The child's eligibility for federally funded assistance and Medicaid is also integrated into the agency's rate determination.

Request for Increased Assistance

After adoption or guardianship, circumstances may change over time and additional assistance may be necessary. To discuss options for increasing financial assistance provided through DHHS, please contact the Income Maintenance worker (IM-FC worker) assigned to your family.
