Subject: RE: Request for Policy and Data for Preventing Sex Trafficking and Strengthening Families Act
Date: Wednesday, January 8, 2020 2:31:11 PM
Attachments: [Policy Areas of PSTA.DOCX](#)
[image001.png](#)

Please see the attached information surrounding Policy for DHHS and the below data. Let me know if there is anything else you are needing as I don't believe any one will be in attendance from DHHS at tomorrow's meeting.

Reports made to the Hotline in which Trafficking was identified as a maltreatment type (calls may include more than one victim). January-December

2017	2018	2019
23	31	82*

*numbers are as of 12/2/2019.

NCANDS number is based on children that have trafficking identified as a maltreatment type and then findings entered in the Fiscal year July-June, this does not include court pending as it is not a final case status determination.

2018	2019
36	not available

The missing youth from care for AFCARS would only be the current placements reported in AFCARS when the youth was missing at the time of the AFCARS report (runs twice a year). Below is the data for that.

AFCARS Report	2017a	2017b	2018a	2018b	2019a	2019b
Missing Youth (point in time)	44	50	36	37	29	42
