## **7. DHHS Update**

Children and Family Services Director, Stephanie Beasley shared information regarding the contract transition from Saint Francis Ministries. She shared that all cases have been reviewed and transferred under DHHS in the Eastern Service Area. She noted that the things remain to be transferred such as auto leases, copiers, and office miscellanea. Beasley shared that all cases were staffed prior to transfer, and that the reviews involved many stakeholders including the FCRO, Guardian Ad Litem, Court Appointed Special Advocates. She noted that most teammates from Saint Francis made the transfer to DHHS, and she thanked workers from Saint Francis for transferring and making the transition smooth. She noted that all leadership has been hired.

Director Beasley continued by sharing an update regarding Families First Prevention and Services Act (FFPSA), that builds a mechanism for families to get support prior to entering deeper in the child welfare system. She noted that multiple providers have come to the table to look at Nebraska's workforce, the needs of kids and families, and provider capacity to implement new evidence-based practices. Beasley shared that Chapin Hall has made some recommendations for new evidence-based practices to be added.

Director Beasley shared information regarding the current work being done to implement additional rates and tiers to the foster care reimbursement rates in collaboration with the Foster Care Reimbursement Rate Committee (FCRRC).

She noted that DHHS has added an additional tier to the Committee’s recommendations based on research done that show the need for additional tiers needed to support single case agreements. She added that DHHS is working with providers to determine the appropriate assessment to support the proposed rates. She thanked the FCRRRC for their work.

Director Beasley responded to a question regarding assistance prior to involvement. She noted that there is a federal definition for candidate for foster care that Nebraska has made as broad as possible that would allow for support prior to system involvement that includes a broad array of life experiences. She added that certain requirements are needed of the family and DHHS regarding prevention planning. She also shared the ability of DHHS to track the success of prevention services.

Director Beasley shared news that DHHS has recently posted job openings for a Family Advocacy Unit that will help families navigate the child welfare system. She noted that DHHS is looking for persons with lived experience, and that a college degree is not a requirement when a candidate has that lived experience.

Director Beasley shared an update regarding Alternative Response cases, noting that the randomizer has been removed and more families are being recommended for that service rather than recommended to Traditional Response to child abuse and neglect.

Director Beasley responded to a question regarding the Kinship Navigator Program and noted that it was recently expanded. She offered to provide more information on this expansion at the subsequent Commission meeting, but she noted the intent of the program is to place children with relative and kin first.
